SKILLS

Having been programming for close to a decade, and narrowed down to games within the last 5 years, I have picked up many skills while working as a team leader, member, and by myself. My work has gotten me used to C++, Unreal Engine, 3D Mathematics, Render Doc, Git, Jira, Parallel Programming, and everything else to do with game development ranging from Level Design, to 3D Modelling, to Workflows such as SCRUM.

- 3D Mathematics
- C++
- PS5 Dev Kit
- Timekeeping
- Computer Science
- 3D Graphics
- Unreal Engine 5
- Teamwork

PROFESSIONAL EXPERIENCE

Uprise Games, Norwich- *Lead Programmer and Video Editor*

February 2024 - February 2025

- Hosted a booth at a 3 day game development convention in the Norwich City Centre, displaying our game, and timing people trying to speedrun our levels.
- Lead the programming efforts in Unreal and Construct3, maintaining code standards, providing help to other team members when needed, and planning out the general workflow of the project.
- Implemented Steam compatibility and multiplayer to games, testing them on a demo on our steam page.
- Provided videos, having written a script, voice acted, and edited it all myself.

Pocket Geek Tech Repair, 92 Nethergate, Dundee DD1 4EL - *Team Member*

October 2024 - Present

- Provide excellent customer service while efficiently diagnosing device issues.
- Manage the technicians by prioritising focus on priority jobs.
- Keeping track of stock, and generally maintaining the shop.

Norwich Computers, 157, 159 Magdalen St, Norwich NR3 1NF - *Computer Technician*

February 2023 - June 2023

- Diagnose and resolve hardware and software issues for PCs and laptops, ensuring timely repairs.
- Delivering a tailored PC builds to the client-specific use cases and budget in a fast manner.

EDUCATION

Abertay University, Dundee Bell St- *Bachelor of Science (Hons)*

September 2024 - Present

I am studying **Computer Games Application Development**, where we delve into C++, 3D mathematics including vector and matrix maths for which I got an A, Algorithms and Data Structures, ECS, Parallel Programming. We are often grouped into teams, and work to create a game by a given deadline, with the second year final project being a PS5 Data Oriented game, making use of the PS5 features such as haptic feedback.

Network Engineering, IT Career Switch - *CCNA, COMPTIA A+, Security+, Etc*

September 2022 - September 2023

I took an in depth online course which taught everything from network engineering, to cybersecurity to setting up and managing printers. Lessons from all the major qualifications, such as COMPTIA A+ were provided, though the final test was not taken. This still assists in game development to this day, as learning how IPs work, DNS, ethernet cables, DNS, VLANs, and everything to do with the hardware in IT helps understand how my code would work in a real life scenario.

Access Creative College, Norwich 187 Middletons Ln - *RSL Level 3 Extended Diploma*

September 2022 - July 2024

I studied games Technology Level 3 for 2 years, which touched on all the different parts of game development, from Unreal to Construct3, from marketing to level design, everything in between, such as workflows like SCRUM. I managed to achieve a **Distinction*** in my course.

Hellesdon High School, 187 Middletons Ln, Norwich NR6 5SB - *GCSEs*

September 2017 - July 2022

During my time studying here, I obtained the following diplomas:

- **Computer Science**, Grade 9
- **Mathematics**, Grade 8
- **Combined Science**, Grade 7/7
- **English Literature**, Grade 7
- **English Language**, Grade 6
- **Business Studies**, Grade 6
